

The Land Between

Draft Strategy 2008

GOAL: To raise awareness of the distinctive nature of The Land Between and facilitate support for the conservation and enhancement of its ecological health, community vitality and economic well being.

STRATEGIES:

1. **Support Research:** Foster and share the results of research that documents the distinctive features of The Land Between and extends science and understanding.
2. **Raise Awareness:** Share information with individuals, organizations and agencies in *The Land Between* to increase their recognition of and response to the area's special values.
3. **Increase Cooperation:** Cultivate partnerships and establish networks that will highlight regional identity, expand communication and encourage collaboration in stewardship.
4. **Conserve Natural Systems:** Identify and strengthen the links between major natural, cultural and economic features across *The Land Between*.
5. **Influence Planning & Policies:** Offer data, technical information and interpretive material to authorities to ensure that the features and values of *The Land Between* are reflected in plans and policies across the region.
