

Commission of Conservation
Canada

HONOURABLE CLIFFORD SIFTON, CHAIRMAN
JAMES WHITE, ASSISTANT TO CHAIRMAN
1913

**FOREST DISTRIBUTION
IN
TRENT RIVER WATERSHED,
PETERBOROUGH, HALIBURTON AND HASTINGS COUNTIES, ONTARIO.**

Scale, 1:25,000 = 1:97 Miles to 1 Inch.

The uncoloured areas outside of watershed of Trent River and in southern portion of map were not examined. In a few cases, where types are divided from each other by township, lot or concession lines, the division is due to lack of definite information respecting exact line of transition, the information being generalized merely for whole lots.

LEGEND

Hardwood, virgin	[Green box]
Mixed	[Light green box]
Coniferous	[Dark green box]
Hardwood, moderately called	[Light green box with diagonal lines]
Mixed	[Light green box with horizontal lines]
