

II. Survey Data Sheet

Please fill out one of these **Survey Data Sheets** each time you survey your cover boards/property for snakes and skinks, even if no snakes or skinks are found. Don't forget to input the data from this sheet into the **online form** after you complete each survey.

Table A is for recording snakes, skinks or other wildlife found under or around a cover board. **Table B** is for recording snakes found on your property, but not under or around a cover board. **Table C** is for recording wildlife other than snakes and skinks found on your property, but not under or around a cover board.

When taking a GPS location, please report in **decimal degrees** (e.g. 45.0194031, -78.5396123) and include **as many digits as possible** to increase the accuracy of the location information.

Please take **photos** of all of the **wildlife** you see throughout your survey, especially the **snakes!** Upload the photos to the online reporting form at the end of each survey.

If you require additional space in any of the data tables, please use another form labeled with the **same survey number**, followed by "**Part 2, Part 3**", etc. as necessary. If you find more than one species of snake under the same cover board, please fill in as many rows of **Table A** as is necessary with the same cover board number. For example, if you find one Gartersnake and one Ribbonsnake under cover board 2, please fill in one row for the Gartersnake and one row for the Ribbonsnake with the cover board number listed as 2 for both.

General Information:

| | |
|--|--|
| Surveyor Name | |
| Surveyor ID Number* | |
| Survey Number | |
| Start Time | |
| End Time | |
| Date | |
| Snake(s)/skink(s) found during survey (Y/N) | |

*Please note: your Surveyor ID Number was assigned to you in your Welcome email

Weather:

| | |
|---------------------------------|---|
| Air Temperature (°C) | |
| Cloud Cover (Circle one) | Sunny (no clouds) Partly cloudy (less than 50% cloud cover) Mostly Cloudy (greater than 50% cloud cover) Cloudy (complete cloud cover) |
| Wind Conditions (Circle) | None Light Breeze Moderate Wind Strong Wind |
| Other Notes | |
